

The figure is a scatter plot with 'x coordinate' on the horizontal axis and 'y coordinate' on the vertical axis. The x-axis has major ticks at -0.5, 0.0, 0.5, 1.0, 1.5, and 2.0. The y-axis has major ticks at -0.6, -0.4, -0.2, 0.0, 0.2, 0.4, 0.6, 0.8, and 1.0. The plot contains numerous short, black line segments. Most of these segments are concentrated in a central region where x is between -0.5 and 0.5 and y is between -0.4 and 0.4. These segments appear to be fragments of a larger, more complex structure. There are also a few isolated segments: one near (-0.6, 0.25), one near (-0.4, -0.45), one near (-0.15, 0.95), one near (0.55, -0.3), and one near (1.75, 0.8).
